

# **Solent Summit N Scale Modular Group**

## **Operating Guidelines – Mechanical Engineers Notes**

### **1. Set Up**

1. Connect all board to board buses as boards are bolted together
2. Initially, all legs are to have the adjustable feet screwed fully up

### **2. Dismantling**

1. Fishplates are to be slid to the right as viewed from the front so that they end up on the west end of each board
